Coventry Safeguarding Adults Board

- We give leadership and guidance to agencies.
- We also check that arrangements are in place to deal effectively with allegations of abuse and neglect.
- We aim to enable the professionals who work with adults with care and support needs to act and keep people safe, while ensuring those accused of abuse or neglect, are dealt with appropriately.

Coventry Safeguarding Adults Board

- Our Priorities

The Board ensures that complex safeguarding issues, such as self-neglect, modern day slavery, Child Sexual Exploitation and transitions, and domestic violence are understood

The Board communicates and engages with members of the public, third sector and small independent providers, including raising awareness of safeguarding

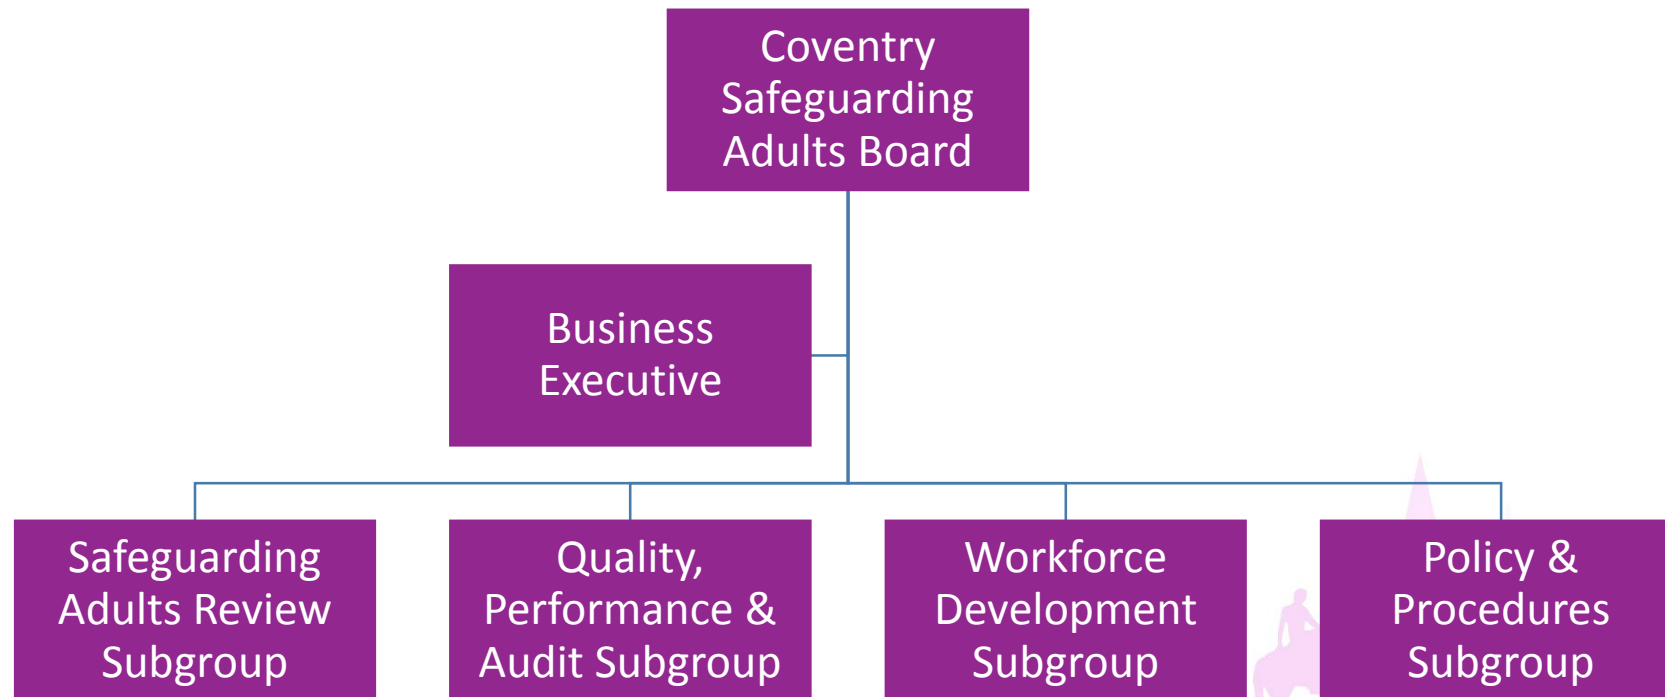

The Board ensures that the Making Safeguarding Personal agenda is championed and improves outcomes for people with care and support needs and carers

The Board to ensure that the city's learning and development offer is sufficient to ensure the workforce is suitably skilled and equipped to safeguard people with care and support needs in Coventry

Welcome to this newsletter from the Coventry Safeguarding Adults Board (CSAB).

It is a pleasure to introduce our third newsletter. We have included updates from different safeguarding services, which I hope you will find useful. If you weren't able to join us at our conference in November take a look at our conference report and see what you missed! The views of professionals and service users are important to us so if you have any ideas/articles for inclusion in future editions please get in touch with the Safeguarding Team, contact details are at the end of this newsletter. Equally please get in touch, if you have a forum where service users meet and would like a Board member to come along and talk about the work of the Board.

Workforce Development

- Workforce Development sub group, developed workforce strategy
- Key priorities – Training plan, Quality Assurance of training and best practice learning events
- ‘Themed’ topics, 3 a year – March, June and September
- Materials available via Board Web pages (under development)
